Nature's Wonders

Bee Swarms & Nests

Introduction

This set offers easy-to-use "grouped" bees, wasps and yellow jackets in stationary, circular and directional formations. These formations are "prop" based and often include morphs to change position of the insects and in some cases, flap their wings (which could be used in animation). Also included is a paper wasp nest, a hornet/yellow jacket nest and a mud dauber nest, as well as a beekeeping hive frame.

These seven formations are just what your renders need to be abuzz of excitement and detail. Bees of the World comes in both Poser and DAZ Studio native versions and support Firefly, 3Delight, Superfly and Iray render engines.

Overview and Use

This set uses prop-based characters. The product is found in the **Animals / Nature's Wonders Insects / Bees of the World / Props** and in the **Nature's Wonders / Fauna Libraries / Insects / Bees of the World / Swarms** folder. As expected, the Nests will be in the **Props** folder and the Swarm Formations will be in the **Swarms** folder. All the Poser files are found within the "Figures" library.

Models included in this volume:

- Honeybee Swarm 1 (a mix of Workers and Drones in a circular formation)
- Honeybee Swarm 2 (a mix of Workers and Drones in a circular formation)
- Honeybee Swarm 3 (Workers in a Directional Formation)
- Honeybees on a Hive Frame (Workers, Drones and a Queen in a Stationary Formation)
- Wasps on a Nest (Workers and Drones in a Stationary Formation)
- Wasp Swarm (Workers in a Directional Formation)
- Yellowjacket Swarm (Workers in a Directional Formation)
- Wasp Nest ("Wasps on a Nest" formation *SmartParents* to this)
- Hive Frame4 ("Honeybees on a Hive Frame" formation *SmartParents* to this)
- Hornet/Yellow Jacket Nest
- Mud Dauber Nest

Other Resources:

This set is being released at the same time as three other “like” sets:

- Nature’s Wonders Bee. The base model set for the Nature’s Wonders Bee. This set includes the model and a Queen, Drone and Worker for the Western Honey Bee.
- Nature’s Wonders Beekeeping. A prop set which includes numerous beekeeping products such as Hive boxes with removable frames, a smoker and a bee tool.
- Nature’s Wonders Bees of the World, Volume 1. This set includes six species from the *Apoidea* superfamily (a bumblebee, cicada killer, mud dauber, wasp, hornet and yellowjacket) (Nature’s Wonders Bee Base set is **required** for this set to work).

**Shirts, jerseys, sweatshirts,
prints, cards, posters, pillows,
coffee cups, calendars & more**
